47 LAKE CHAD

MAITAMA VIEW · BLOCK SB2

Welcome, Mr Dikko Ladan.

Block SB2 at Maitama View is yours: both homes of the semi-detached pair, four bedrooms each, behind one gate on Plot 758 in the diplomatic quarter of Abuja. These sheets walk you round the enclave, your block, its floor plans and the materials it is built from.

2	8	≈ 504 m²
HOMES IN YOUR BLOCK	BEDROOMS, ALL EN SUITE	ROOMS ACROSS BOTH HOMES

Block SB2 from the avenue · visualisation

Nine homes behind one gate.

Maitama View is a gated development of nine homes on Plot 758, CAD Zone A05, Maitama District: five detached duplexes along the eastern boundary and two pairs of semi-detached houses on the west, set along a private, palm-lined avenue with a planted island at its heart. A single gate on the access road, with the gatehouse and generator house beside it, is the only way in.

Only 28 per cent of the ground is built on. The rest is paving, lawn and planting: a three-metre band of garden inside the boundary wall, twenty-three palms, fifty-four trees and over a thousand shrubs. Your block is the second pair in from the gate, on the island side of the avenue, with the largest detached house beyond it.

SITE	3,273.9 m², five-sided; 40 m wide at the road, 66 m deep on the east
BUILT ON	923.5 m² · 28.2 per cent of the ground
HOMES	Nine: five detached duplexes (V1–V5) and two semi-detached pairs (SA, SB2)
AVENUE	6 m, private, the length of the site, with a planted island
PLANTING	3 m band inside the wall · 23 palms · 54 trees · 1,072 shrubs
GATE	Single gated entry; gatehouse 7.8 × 3.4 m with guard room, kitchenette, WC and a 9 m² generator house
BOUNDARY	900 mm wall between 450 × 450 mm reinforced-concrete columns, steel railing above
ARCHITECTS	Abdullahi Ndanusa & Arc. Daniel S. Akpama · working drawings July 2026

Site plan drawn in metres from the site layout drawing · north arrow and 10 m scale on the sheet

From above · the two semi-detached pairs on the west of the avenue, the detached row on the east

The avenue is the address.

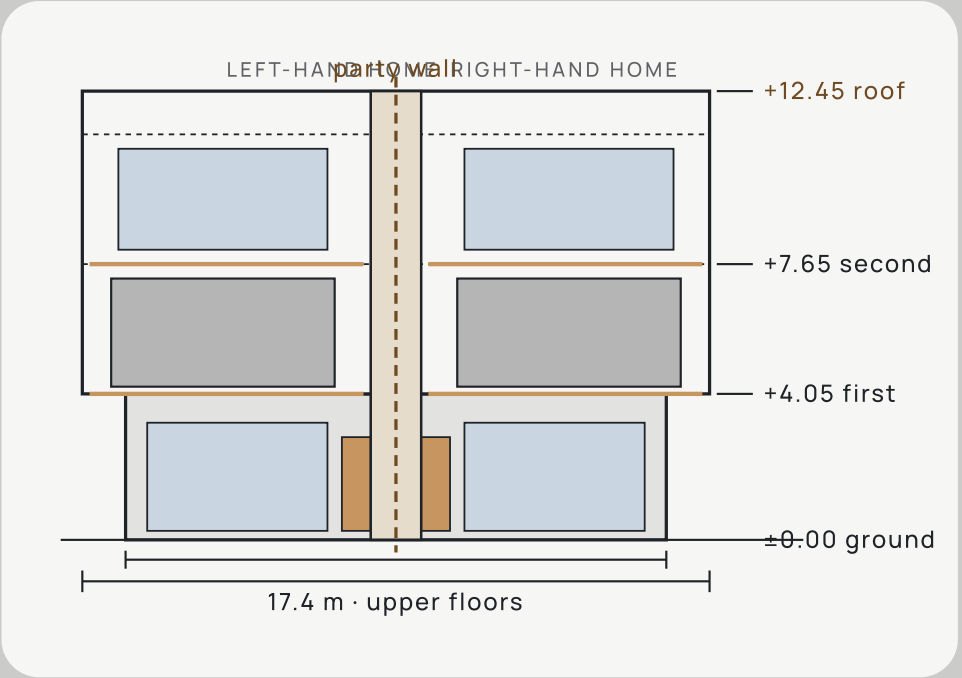

From the gate, the avenue runs the length of the site between the planted band on one side and the row of detached houses on the other. Every home has a paved plot of its own with parking at the door, beneath the oversailing upper floors, and the avenue's island of palms and trees sits directly in front of your block.

The gatehouse at the entrance has a guard room, kitchenette and WC, with the generator house behind a fire-rated steel door. The boundary wall is a 900 mm sancrete wall with concrete infill between reinforced-concrete columns, a hollow-section steel railing above and precast copings throughout.

Two homes under one roof.

SB2 is a pair of mirrored houses about a party wall, and both halves are yours. Each home is 7.5 by 12 metres at ground, growing to 8.7 by 13.9 metres on the two bedroom floors above, with four en-suite bedrooms, a family living room, a balcony on each upper floor and parking at its own front door.

TYPE	Semi-detached pair · both homes
FOOTPRINT	7.5 × 12 m per home at ground · 15 × 12 m the pair
UPPER FLOORS	8.7 × 13.9 m per home · 17.4 × 13.9 m the pair
STOREYS	Three: living floor at ground, family floor above, master floor on top
BEDROOMS	Four per home, every one en suite · eight across the block
ROOMS	≈ 252 m² per home · ≈ 504 m² across both (indicative)
LEVELS	Ground ±0.00 · first +4.05 · second +7.65 · roof +12.45 m
POSITION	West of the avenue, second pair from the gate; the planted island at the door, V5 beyond

Front elevation, schematic · 1 unit = 100 mm · levels from the working drawings; the ground floor is 15 m wide, the upper floors 17.4 m

Floors that float

The ground floor is glass and stone, set back beneath the house. The two bedroom floors above oversail it on every side, so the car stands under cover at the door.

A screen across the balcony

Each first-floor balcony sits behind a dark perforated panel, a lattice of small triangular openings that filters the sun by day and glows from within at night.

Light along every edge

A continuous strip of warm light is recessed beneath every slab edge and canopy, so the house reads as a set of floating white planes after dark.

The pair at dusk · a line of light beneath every slab edge

Three floors, read room by room.

The pair as drawn, both homes on each sheet: the left-hand home and the right-hand home mirror one another about the party wall. The numbers key to the room lists.

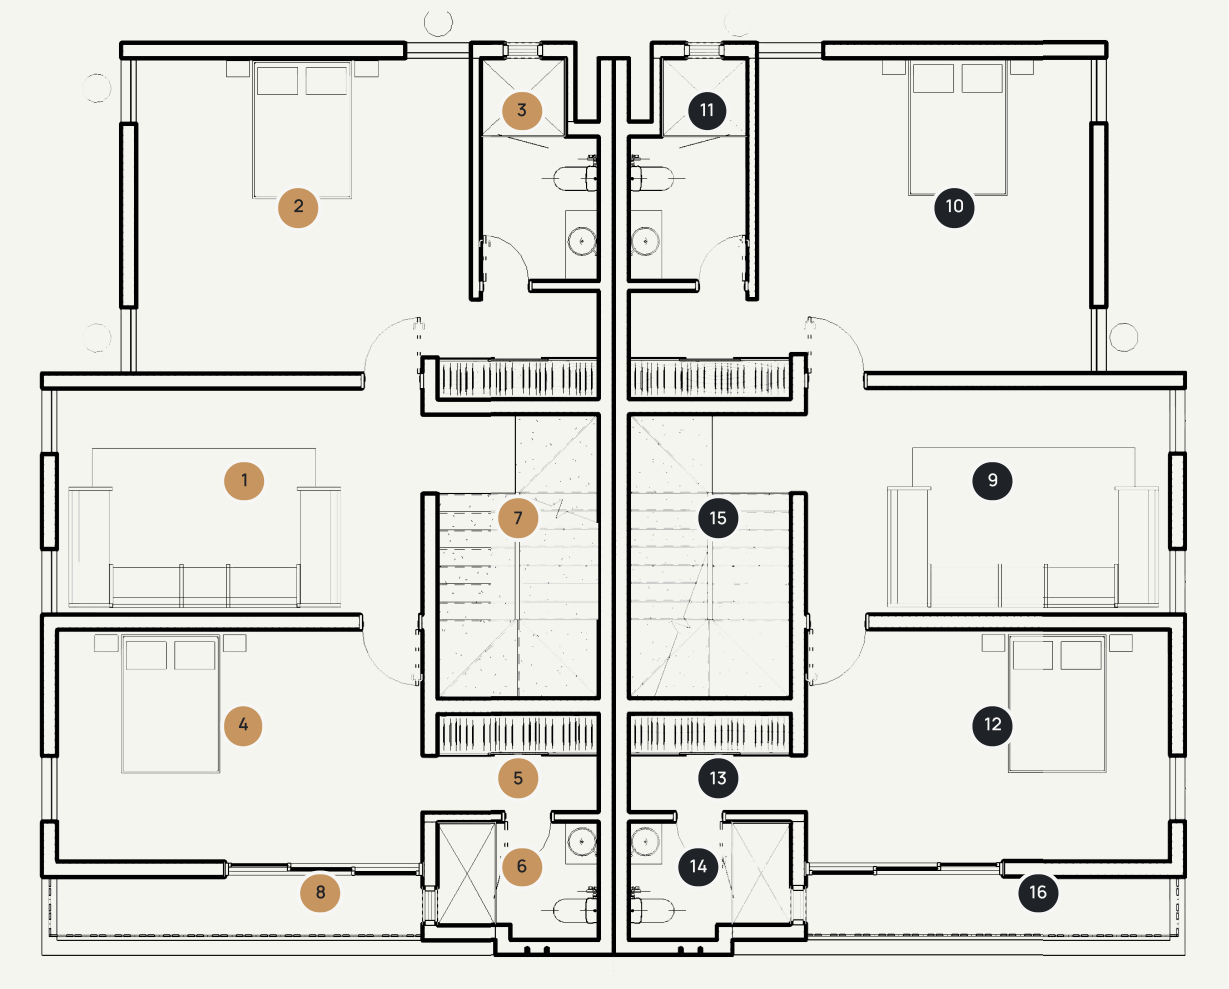

Ground floor · entrances at the foot of the plan · the terrace beyond the living room

Ground floor

±0.00 · THE LIVING FLOOR

The living and dining room opens to the terrace at the back; the kitchen and its store sit at the front beside the stair, with the visitors' WC at the entrance. The front doors of the two homes stand either side of the central pier.

Plans redrawn from the architectural working drawings of July 2026 with dimensions and annotations removed; the numbered markers sit where the rooms are labelled on the sheets. Layouts and areas are indicative until handover.

What it is built from.

Finishes and systems as set out in the architectural working drawings and their door, window and curtain-wall schedules. Selections shown in the visualisations are indicative of quality and tone.

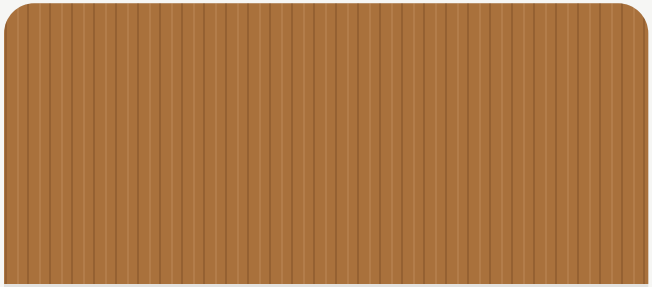

M01
White render
12 mm plaster, primed, two coats of emulsion

M02
Perforated screen
Dark lattice panel across each first-floor balcony

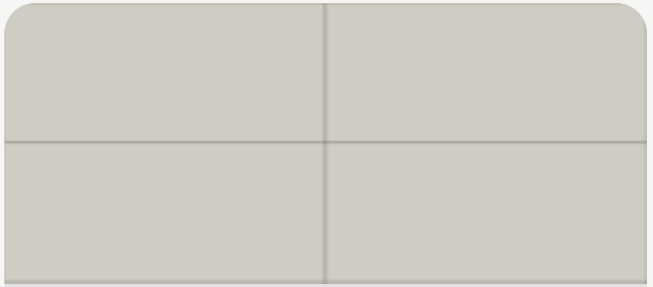

M03
Travertine
Full-height piers beside the screens and at the entrance

M04
Oak & teak
Oak-faced front doors; teak-veneered flush doors within

M05
Tinted glass
6 mm toughened, in powder-coated aluminium

M06
Vitrified tile
10 mm floor tiles on a 50 mm screed throughout

Structure & envelope

FRAME	Reinforced-concrete frame on pad foundations at −1.5 m; 200 mm in-situ ground slab; 4.05 m ground to first floor, 3.6 m floor to floor above, the upper floors oversailing the ground-floor walls
WALLS	230 mm blockwork, 12 mm plaster-rendered, primed and finished with two coats of emulsion to a RAL-approved colour; travertine-faced piers; the balcony screens in a dark perforated panel
ROOF	150 mm reinforced-concrete roof cover to the semi-detached houses, behind a parapet capped in 0.7 mm colour-coated aluminium at +12.45 m
CURTAIN WALLS	Powder-coated aluminium curtain walling on 1.5 mm NIGALEX profiles, glazed in 6 mm tinted toughened safety glass to the living room and the second-floor front

Finishes & rooms

FLOORS	10 mm vitrified floor tiles on a 50 mm cement screed throughout, over the 200 mm ground slab and the upper-floor slabs
KITCHEN	Fitted kitchen with island unit to the joinery details in the drawing set, with a store beside it
BEDROOMS	Every bedroom en suite; fitted wardrobes to the wardrobe details; a walk-in closet to the master suite; a visitors' WC at the entrance
BALCONIES	Glass balustrades; the first-floor balcony behind the perforated screen, the second-floor balcony beneath the roof overhang

Doors & windows

ENTRANCE	Single-leaf steel security pivot door with reinforced leaf and frame, multi-point locking, tamper-proof hinges and weather seals, to Israeli standard or approved equivalent
TERRACE	Three-leaf sliding glass doors in powder-coated aluminium, 6 mm tinted toughened glass, with concealed track, floor guide and soft-close
INTERNAL	38 mm solid-core flush doors in polished teak veneer on 40 × 90 mm hardwood frames, fire-rated E60 with intumescent and smoke seals
WINDOWS	Outward-swing awning and triple-leaf casement windows in white powder-coated aluminium, 6 mm clear or tinted toughened glass, aluminium lever handles and friction stays

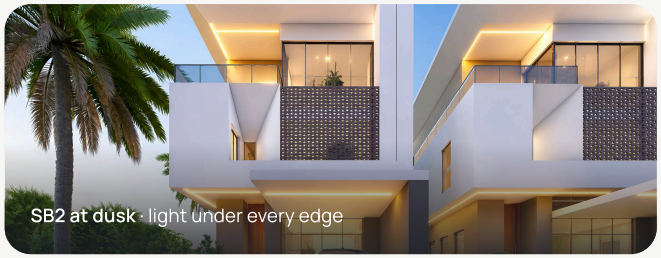

Site & services

BOUNDARY	900 mm sancrete block wall with concrete infill between 450 × 450 mm reinforced-concrete columns, 50 × 50 mm hollow-section steel railing above, precast concrete copings
GATEHOUSE	7.8 × 3.4 m at the gate: guard room, kitchenette and WC, with a 9 m² generator house behind a fire-rated steel door
LANDSCAPE	Three-metre planted band inside the boundary wall; 23 palms at 3 m, 54 trees and 1,072 holly-bush shrubs; the planted island on the avenue
ARRIVAL	A single gated entry from the access road; the 6 m private avenue; a paved plot at the block with parking at each front door beneath the oversailing floor

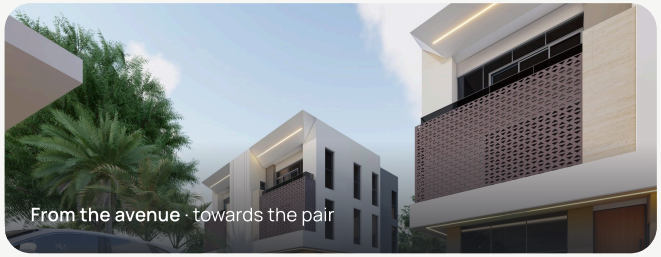

Eight views of the enclave.
